

Digital Communication

RS 485 standard, communication capability using open modbus RTU protocol. The meters can be multi dropped using RS 485 twisted pair. The baud rate can be set from 1200 to 9600. RS 485 Half duplex isolated serial channel connection.

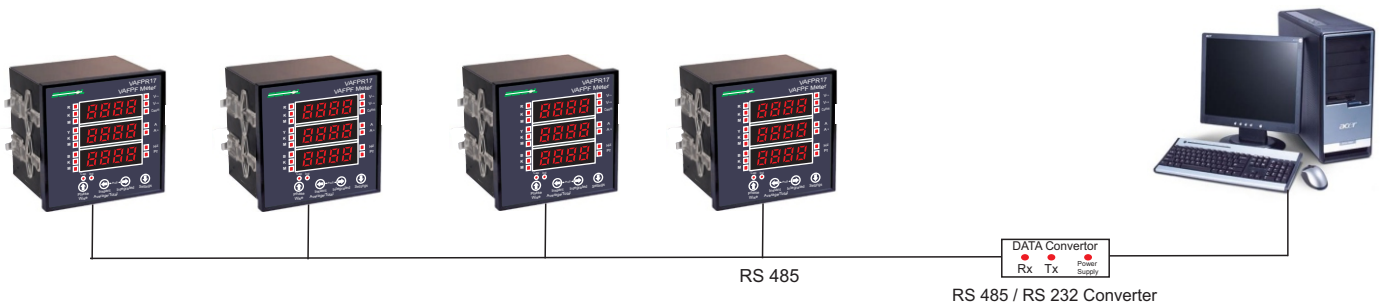

BMS Compatible

Access of either single (individual) Parameter or block of parameters through RS 485 communication port.

RS 485 Single Point Communication (Modbus)

RS 485 Multi Point Communication (Modbus)

WIRING CONNECTIONS
